LIGHTWEIGHT SUMMER COMFORTER

A lighter fill for summer and warmer bedrooms. A slim profile and soft drape suit those who prefer less weight over the body.

01 PROPOSED FILL

100% long-strand mulberry silk

02 SHELL OPTIONS

60s / 80s cotton, subject to sample approval

03 LIGHTER-FILL OPTIONS

Fill weight tailored to size and target market

Select the fill weight for the bedroom, duvet cover and preferred feel. Proposed dimensions and weights appear on page 7; the approved sample sets the final specification.

HEAVIER-FILL WINTER COMFORTER

For winter and cooler bedrooms, a higher fill weight gives a more substantial feel. The collection pairs a cotton shell with long-strand mulberry silk.

01 PROPOSED FILL

100% long-strand mulberry silk

02 SHELL OPTIONS

60s / 80s cotton, subject to sample approval

03 HEAVIER-FILL OPTIONS

Fill weight selected for room conditions and size

The winter range is distinguished by a higher fill weight. Agree net fill weight, dimensions and sample feel before ordering; no tested temperature or TOG rating is specified.

Beyond the comforter.

Silk pillowcases

22 momme as a development starting point. Dimensions, closure and colour are specified during sampling. Comforter combinations can be discussed.

Silk sleep masks

Silk contact fabric, with lining, padding and strap specified separately. Individual packaging and gift combinations can be discussed.

ACCESSORIES FOR YOUR COLLECTION

Accessories are development options. Materials, item codes, packaging, minimum quantities and prices follow written confirmation and sample approval. Bedding sets may follow as future projects; sleepwear and underwear appear on page 9.

Size & fill options

Proposed specifications for sample and quotation discussions. Dimensions are in centimetres; net fill weight excludes the shell and packaging.

ADAPTING TO YOUR MARKET

Confirm actual duvet-cover measurements rather than relying on Queen or King names. Seasonal names distinguish the range; they are not temperature or tested TOG ratings. Agree fill weight, dimensional tolerances and shell specifications in writing.

Gift currently follows the Classic fill matrix; packaging and bundle contents are agreed separately. All item codes are development references, not stock availability.

From your brief to a sample.

A clear specification is the starting point for a comforter developed for your market.

01 / YOUR BRIEF

Destination market, duvet-cover dimensions, net fill weight, shell, planned quantity, packaging and requested delivery date.

03 / SAMPLE & DOCUMENTATION

Review material documentation, size, fill weight, inspection opening, securing method and labels. Agree inspection scope and tolerances before ordering.

PRODUCTION PARTNERSHIPS / TONGXIANG, CHINA

Production-site visits can be coordinated with the relevant partner once the project, date and audit scope are agreed.

02 / PROPOSAL & QUOTATION

Confirm feasibility, minimum quantities, sample charges and timing. Quotations specify currency, validity, trade term and named location.

04 / ORDER & DELIVERY

Use the approved sample and written specification for the order. Payment milestones, packaging and shipment arrangements follow the signed order.

LABELS & CARE

Composition labels, care instructions and packaging copy follow the confirmed materials and sample. Washability is specified for each product.

Silk, beyond bedtime.

Mulberry silk sleepwear

Long or short pajama sets. 19 / 22 momme as a fabric development starting point, with colour, fit, size chart and trims confirmed for each project.

Mulberry silk underwear

Developed around a mulberry silk main fabric, with fit and sizing agreed to the brief. Gusset, waistband and elastic materials are specified separately.

PROJECT DEVELOPMENT / SAMPLE APPROVAL

An extension to the comforter collection. Fabric composition, colourfastness, shrinkage, stitching and care requirements are reviewed for each product. Item codes, minimum quantities, packaging and timing are confirmed separately. A silk main fabric does not mean every component is 100% silk.

Let's begin.

Start with a clear brief.

AuraSilk focuses on silk comforters, working with production partners in Tongxiang, China on samples, specifications and order delivery for bedding brands, retailers and gifting projects.
